

Exposibram 2009

Brazil's largest mining event – ideal for meeting buyers, developing contacts and assessing competition

About Exposibram - Brazil

EXPOSIBRAM 2009 – Brazil's International Mining Exhibition, will be held simultaneously with the **13th Brazilian Mining Congress** in Belo Horizonte in the State of Minas Gerais on September 21-24, 2009.

Exposibram is the largest mining show in Brazil and the ideal place to meet buyers, potential agents and partners, and get a first-hand appreciation of the size of the market and competition.

In 2007, Exposibram attracted 45,000 visitors to the exhibition, 470 exhibitors from 22 countries and over 1,500 delegates to the mining congress.

Advantages of joining the Australian National Pavilion

- Leverage off the high profile of National Pavilion with its distinctive Australian branding to raise market awareness of your products and services.
- Meet Brazilian customers and other industry contacts attracted to the Pavilion.
- Develop a firsthand understanding of the market through Austrade's networking events, market briefings and optional mine visits.
- Identify potential agents and distributors.
- Receive on-the-ground assistance from Austrade and advice on how to operate successfully in this market.
- Investigate Brazilian mining industry competition.

About Brazil

With a gross domestic product (GDP) of A\$1,933 billion (2008), Brazil has the 10th largest economy in the world and represents about half of the South American territory and economy. The Brazilian mineral sector is diversified and Brazilians are world leaders in the production of iron-ore, gold, bauxite, kaolin, manganese, phosphate rock and niobium. Brazil is expected to attract over A\$42.10 billion in investment in exploration and mine development in the period up to 2020. Vale, the world's second largest miner, has major global operations including New Caledonia, Indonesia, Southern Africa, Australia as well as Brazil. Vale is the single largest purchaser of mining equipment in Brazil and represents an excellent opportunity for Australian mining equipment suppliers due to its size and high level of professionalism.
