

Pitram Systems Specialist

Perth

We are seeking the services of an experienced IT Specialist to fill the position of Pitram Systems Specialist. The Pitram System Specialist team is responsible for the analysis, deployment and ongoing support of new Pitram solutions. An opportunity exists to join this team. The successful candidate will enjoy a challenging, varied career working for a leading technology supplier to mining organisations around the world.

*MICROMINE's **Pitram** is a mine management and control solution for underground and surface mines. Based on current, industry-standard technologies, Pitram is a critical management tool for many of the world's leading mining companies.*

Position responsibilities

- Assist with the implementation of Pitram both in Australia and as required on a national and global level
- Provide recommendations regarding implementation methodology, quality and consulting skill sets.
- Maintain and develop long-term customer relationships
- Provide additional training and coaching of clients
- Produce periodic reports as defined by management
- Preparation and presentation of product demos as required

Skills and Experience

- First-rate IT skills, especially for networking and SQL issues
- Good interpersonal and communication skills
- Ability to work well in a team and autonomously
- Experience gathering client requirements
- Pitram / mine control system knowledge (preferable)
- Mining/resource industry experience (preferable)

Note: The Pitram Systems Specialist will be expected to travel extensively throughout Australasia for the purpose of implementing Pitram systems.

This is a fantastic career opportunity if you have a passion in IT and customer service, and if you are looking to develop a career and gain experience within IT and the Mining industry.

This position will be based in our Head Office in Perth, located in Nedlands; a suburb conveniently located near to the City and equipped with a large variety of services for the public.

You must be an Australian Citizen or Permanent Resident and live locally to apply for this Perth based position.
