

NEW developments in GIS mapping software, data management and 3D geological modelling software

You are invited to attend an informative **ONE DAY SEMINAR** on new tools and techniques for the Albanian exploration and mining industry. The focus of the seminar will be GIS mapping software, data management, and 3D geological modelling which lowers costs, drives production and increases productivity. The software and related consultancy services also allow for the effective use of historical data, as well as the ability to generate JORC and other internationally recognised compliant resource estimations.

When Tuesday 15 June, 2010

Where Polytechnic University of Tirana
Faculty of Geology and Mining
KRIST - ART Room

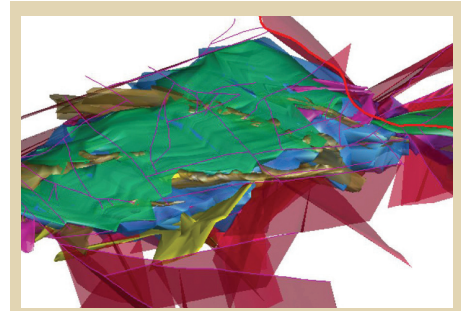

Time 8.30am registration (9.00am start) - 3.45pm

Presenters James Hogg, Micromine UK Technical Manager
Andrew Rogers, Micromine UK Sales Executive
Mark Butcher, Micromine Consultant
Professor Perparim Hoxha
Professor Ilir Alliu

Cost Complimentary (lunch, snacks & beverages provided)

Who should attend? Geology and mining engineers, academics and students

RSVP By **Friday 11th June 2010** to Spartak Kasapi at spartak@blakanresources.com. Alternatively, contact Dusan at EC Terra by calling +38 (0) 6333 9199, or emailing dusan@ecterra.de

Mineralised bodies and fault system

Agenda

am	Session	Speaker	pm	Session	Speaker
8.30	Reception and Coffee		12.00	The use of 3D modelling software for data handling, display and interpretation	James Hogg
9.00	Introduction	Professor Perparim Hoxha	12.30	Lunch	
9.15	Comparison between Western and Russian resource classification	Professor Ilir Alliu	13.00	The use of 3D modelling software for industry compliant resource and reserve estimation - Part 1	James Hogg
9.45	Micromine Corporate Overview	Andrew Rogers	14.00	Break	
10.15	GIS and data management in mining exploration	Mark Butcher	14.20	The use of 3D modelling software for industry compliant resource and reserve estimation - Part 2	James Hogg
11.00	Break		15.30	Close and Questions	
11.20	Field Marshal and GBIS data management for geoscientists	Mark Butcher James Hogg			

About Micromine

Micromine is a global leader in providing innovative software solutions and services to the mining and exploration industry. With 23 years experience servicing the global mining and exploration industry and offices in 15 of the world's largest mineral resource producing countries, Micromine has proven expertise in providing solutions that lower costs, drive production and increase productivity.

About EC Terra

Please view the EC Terra website for further information www.ecterra.de.

To attend the one day seminar...

Please contact Spartak Kasapi at spartak@blakanresources.com by **Friday 11th June 2010**. Alternatively, contact Dusan from EC Terra on +381 (0) 6333 9199 or dusan@ecterra.de.
