

GEOBANK TRAINING: **GEOBANK ADVANCED**

The Geobank Advanced course will provide attendees with the skill to configure their own Geobank system.

WHAT WILL I LEARN?

Upon completion of the course, you will be able to:

- Register Databases and manage Data Sources
- Build Data views and Queries
- Configure Imports and Exports
- Create Graphic and Text Reports

WHO IS IT SUITABLE FOR?

- Geobank users who are confident with the basics of Geobank
- Administrators
- Advanced Geobank users

PRE-REQUISITES

All attendees must have completed the Introduction to Geobank (previously known as GBIS) course, or have demonstrated a familiarity with the basics of Geobank.

HOW LONG IS THE COURSE?

1-2 days.
